PRINCIPAL GLOBAL INVESTORS FUNDS

GENERAL INFORMATION

The following information is derived from and should be read in conjunction with the full text and definitions section of the prospectus.

The Principal Global Investors Funds (“the Trust”) was constituted on 13 October 1992 as an open-ended umbrella Unit Trust established as an Undertaking for Collective Investment in Transferable Securities (“UCITS”) under the laws of Ireland. The Unit Trust has created a number of sub-funds (the “Funds”, individually referred to as “Fund”). The Trust has been authorised in Ireland pursuant to the European Communities (Undertakings for Collective Investments in Transferable Securities) Regulations, 2011, (as amended) and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) (Amendment) Regulations 2019 (the “Central Bank UCITS Regulations”).

Units are unhedged, except where otherwise noted.

For the period to 31 March 2024, the Trust comprised of the following Funds:

²Principal Capital Securities Fund launched on 13 March 2024.

Principal Global Investors (Ireland) Limited (the “Manager”) may, with the prior consent of the Central Bank and approval of The Bank of New York Mellon SA/NV, Dublin Branch (the “Depositary”) and the Board of Directors of the Manager (the “Directors”), add additional Funds.

The financial statements are published on the www.principalglobal.com website. The Directors, together with the Manager and Principal Global Investors, LLC (the “Investment Adviser”) are responsible for the maintenance and integrity of the financial information included on this website.

PRICES

There will be a single price for buying, selling and switching units in each of the Funds. This will be represented by the Net Asset Value (“NAV”) per Unit (less/plus duties and charges where applicable).

DEALING

The dealing deadline (being the time by which subscription and redemption requests for units must be received in Dublin in order for such requests to be dealt with in normal circumstances on a particular dealing day) is 10.00 a.m. (Irish time) on that dealing day. The dealing deadline for requests from Hong Kong investors is 5.00 p.m. (Hong Kong time) on that dealing day. All dealing requests should be addressed to:

Minimum Subscription

I Class	EUR 2,000,000
X Class	EUR 1,000,000,000

¹Principal High Grade Capital Securities Fund launched on 26 February 2024.

²Principal Capital Securities Fund launched on 13 March 2024.

DISTRIBUTIONS AND DISTRIBUTOR STATUS

The Trust Deed provides for the Manager to decide to make, and for the Trustee on each distribution date to make, distributions among holders of income units and income plus units in each of the Funds. It is the intention of the Manager to make distributions to the extent that they are covered by income received from underlying investments. It is also the intention of the Manager that distributions will be declared on 30 September each year or nearest business day for all Income Unit Classes and Income Plus Unit Classes where possible. Annual distributions will be payable in respect of the A Income Unit Class on the Global Responsible Equity Fund, the A Income Unit Class on the European Responsible Equity Fund, the A, A2, D, I, I2 and N Income Unit Classes on the Global Properties Securities Fund and the D and N Income Unit Classes on the U.S. Blue Chip Equity Fund. Quarterly distributions will be payable in respect of the A, I, D, F, N, P and X Income Unit Classes on the Preferred Securities Fund, the A, I, D and N Income Unit Classes on the Global High Yield Fund, the A2 (Quarterly) and D2 Income Plus Unit Class, I (Quarterly) Income Unit Classes of the Global Property Securities Fund, the A, A2 and I Income Unit Classes on the Post Short Duration High Yield Fund, the A, A2, I, I2, I3, D, F, N Income Unit, A2 and P2 Income Plus Unit Classes on the Finisterre Unconstrained Emerging Markets Fixed Income Fund, the I2 and A2 Income Unit Class on Asian High Yield Fund, the I2 Income Unit Class on the Finisterre VAG Unconstrained EM Fixed Income Fund, the N and X Income Unit Class on the Finisterre Emerging Markets Debt Euro Income Fund, the X Income Unit Class on the Principal High Grade Capital Securities Fund and the X Income Unit Class on the Principal Capital Securities Fund. Monthly distributions will be payable in respect of the D2 Income Unit and D2 Income Plus Unit Classes on the Preferred Securities Fund, the D2 Income Plus Unit Class on the Global High Yield Fund, the D2 Income Unit Class on the Global Property Securities Fund, the D2 Income Unit and D2 Income Plus Unit Classes on the Post Short Duration High Yield Fund, the D Income Unit and D Income Plus Unit Classes on the Global Diversified Income Fund, the D2 Income Unit and the D2 Income Plus Unit Classes on the Asian High Yield Fund. There are no D2 Income Unit Classes in issue currently on the Finisterre Unconstrained Emerging Markets Fixed Income Fund. Monthly distributions will also be payable in respect of the N2 Income Unit Class on the Preferred Securities Fund. There are no N2 Income Unit Classes in issue currently on the Preferred Securities Fund. There were distributions out of capital of \$256,797 (2023: \$245,968).

Upon the expiry of the period of six years after the relevant Distribution Date, the Holder and any person claiming through, under or in trust for him shall forfeit any right to any distribution not paid, and such amount shall become part of the relevant Fund.

CORPORATE GOVERNANCE

The Board of Directors of the Manager has adopted and applied standards of corporate governance that are consistent with the Irish Funds Code for the period ended 31 March 2024.

CONNECTED PERSONS

The Central Bank of Ireland ("CBI") UCITS Regulations, Section 43(1), Restrictions on transactions with connected persons - requires that any transaction carried out with a UCITS by a distributor, manager, trustee, administrator, Depositary, investment adviser, sub-adviser and/or associated or group companies of these ("connected persons") must be carried out as if negotiated at arm's length. Transactions must be in the best interests of the Unitholders of the UCITS.

Having regard to confirmations from the Manager's Designated Person for Capital and Financial Management, and the Trustee, the Board of Directors of the Manager is satisfied that there are arrangements (evidenced by written procedures) in place to ensure that the obligations set out in Regulation 43(1) of the Central Bank UCITS Regulations are applied to all transactions with connected persons, and is satisfied that transactions with connected persons entered into during the period complied with these obligations.

None of the Directors had any interests in the units of the Funds for the period from 1 October 2023 to 31 March 2024.

GENERAL INFORMATION (continued)

SIGNIFICANT EVENTS DURING THE PERIOD

Prospectus and Supplement Changes

- A revised prospectus for the Unit Trust was issued on 14 December 2023.
- New supplement was issued for all funds on 14 December 2023.

Launches during the period:

Fund

- Principal High Grade Capital Securities Fund and Principal Capital Securities Fund launched on 26 February 2024 and 13 March 2024 respectively.

Share Class

- Finisterre Emerging Markets Debt Euro Income Fund X Class Accumulation (USD Hedge) and X Class Income (USD Hedge) on 8 February 2024.

Closures during the period:

Share Class

- Preferred Securities Fund I Class Accumulation (AUD Hedged) on 28 November 2023.

There have been no other significant events affecting the Funds during the period ended 31 March 2024.

SIGNIFICANT EVENTS AFTER THE PERIOD END

Effective 10 May 2024, Global Sukuk Fund, Islamic Asia Pacific Dynamic Income & Growth Fund, Islamic Global Multi-Asset Fund and Islamic Global Responsible Equity Fund will merge with sub-funds of Principal Global Investors Funds. The merger will involve the delivery and/or transfer all net assets of the merging funds to four receiving funds of the Principal Global Funds. Islamic ASEAN Equity Fund will close on 10 May 2024.

There have been no other significant events affecting the Funds after the period ended 31 March 2024.

PRINCIPAL GLOBAL INVESTORS FUNDS

INVESTMENT ADVISER'S REPORT

for the period ended 31 March 2024

Global Responsible Equity Fund

For the six-month period ending 31 March 2024, the PGIF Global Responsible Equity Fund reported net performance of 20.78% compared to 20.14% for the index, MSCI ACWI Index.

Sector performance was mixed overall as strength in IT, health care and materials was partially offset by weakness in financials, consumer staples and communication services. From a country perspective, the United States and China led the strength while Norway and Japan lagged overall. Over the period, NVIDIA, Trane Technologies and Taiwan Semiconductor Manufacturing were the top three contributors while the top individual detractors were Equinor, AIA Group and Panasonic.

The strength of the broader economy is feeding into investor optimism and in turn, we are beginning to see breadth in equity returns as the first quarter of 2024 concluded. With a lot of concentration in select names in 2023, many stocks were overlooked, creating opportunities across the equity landscape in the year ahead. Positively, earnings growth is trending higher but remains in negative territory. Following a period of valuation improvement, earnings remain a key catalyst to further upside. Bottom-up stock selection will be key amidst uneven global economy recoveries and fluid central bank policies.

European Responsible Equity Fund

For the six-month period ending 31 March 2024, the PGIF European Responsible Equity Fund reported net performance of 19.05% compared to 16.86% for the index, MSCI Europe Index.

Sectoral performance was strong overall with outperformance from financials, consumer discretionary, and consumer staples while being partially offset by weakness in industrials, health care and energy. From a country perspective, the United Kingdom and Denmark outperformed while Germany and Norway were weak overall. Over the period, Novo Nordisk, ASML and Pandora were the top three contributors. The top individual detractors were AIXTRON, Sanofi and AstraZeneca.

The strength of the broader economy is feeding into investor optimism and in turn, we are beginning to see breadth in equity returns as the first quarter of 2024 concluded. With a lot of concentration in select names in 2023, many stocks were overlooked, creating opportunities across the equity landscape in the year ahead. Positively, earnings growth is trending higher but remains in negative territory. Following a period of valuation improvement, earnings remain a key catalyst to further upside. Bottom-up stock selection will be key amidst uneven global economy recoveries and fluid central bank policies.

Preferred Securities Fund

For the six-month period ending 31 March 2024 the PGIF Preferred Securities Fund reported net performance of 8.66%, compared to 7.85% for the index, Bloomberg Global Agg Corp USD TR USD Index.

The Fund benefitted from its allocation to the Insurance hybrid and Additional Tier 1 (AT1) Contingent Convertible (CoCo) sectors. Specifically, lower coupon and longer duration insurance bonds performed well (in names such as Zurich, MetLife, Munich Re, Liberty Mutual and Prudential, given the spread compression and duration performance from lower yields. Some of the top contributors in the AT1 CoCo sector came from deeper discounts in names like Banco Santander, Standard Chartered, UBS and Svenska. The Subordinated debt issues in the portfolio also had a strong period of performance with tightening spreads in names like Ally Financial, Unicredit, Capital One, Fifth Third and MacQuarie Bank.

Inflation has proven to be sticky and slightly elevated since year end which has caused the Fed to become more hawkish during the course of this year. The yield curve de-inverted by 5bps but has remained inverted for 20 months running. This has put more pressure on the front end of the yield curve and makes the 5yr sector still quite compelling despite the recent rally. This makes the capital securities sector commensurately compelling from absolute yield perspectives of anywhere from 6.50% and 8.50% depending on the sector. We cut senior debt by 2.27%, AT1 CoCo by 1.89% and subordinated debt by 1.49% through a combination of relative value and redemptions by the issuers. We added two euro denominated UCITS funds (hedged back to USD at the share class) to pick up spread and yield from the USD forwards. We also added 1.62% to Canadian Bank AT1 (limited recourse capital notes) 0.66% to the \$25par sector. The Fund ended the period with attractive yields; cy: 6.15%, yield to maturity: 7.39%, yield to call: 6.87%, yield to worst: 6.34% with a duration of 3.74. The Fund has a BBB average rating with 84% investment grade using the best of S&P and Moody's.

PRINCIPAL GLOBAL INVESTORS FUNDS
INVESTMENT ADVISER'S REPORT
for the period ended 31 March 2024 (continued)

Preferred Securities Fund (continued)

There should be ample opportunities to buy attractive hybrid yields this year because the United States Treasury (UST) market is in a confirmation mode and cannot run more than what the Federal Reserve ultimately does which, the more the year progresses, appears will be less than the bond market had originally discounted – so, a longer term UST rally (i.e., the UST10yr) for this year has largely already been played out by last year's move, hence the backup so far this year. We expect capital returns this year to be largely related to tightening spreads. Maintain a defensive orientation by positioning fixed-to-refixed structures and barbell these discounts with current coupon new issuance which embeds a "pull toward par" backstory to preserve capital and offer the potential for income growth. Hybrids offer the most positive real yield opportunity in corporate credit, net of default. The Fed should cut rates by 50-75bps later this year, though elevated real yields in US treasuries will likely persist because of a higher terminal rate (i.e., "r-star") being necessary in the new paradigms de-globalization, de-carbonization, and fiscal excess (all inflationary). The structural "pull toward par" discounts should reward hybrid investors who take advantage of today's lower prices and fair value spreads. Large sectors of the hybrid markets are not "fixed income", but rather "fixed-to-refixed income", which means if rates do stay higher than they have in the past coming out of this rates cycle, income in hybrid portfolios can rise.

Global High Yield Fund

For the six-month period ended 31 March 2024, the PGIF Global High Yield Fund reported net performance of 8.81% compared to 8.89% for the index, ICE BofA Global High Yield USD Hedged Index.

Underperformance within the period came from overweights to Teide PTE, Altice, and Global Aircraft Leasing Co, and our positioning within the capital structures of Altice, and Medline / Mozart Borrower LP. An absence from Petroleos Mexicanos (not held on ESG grounds) also hurt performance. Security selection positively impacted returns due to the outperformance from overweights to Olympus Water US Holding Corp, Gap Inc, and Cloud Crane, underweights to Atos SE, and our positioning within the capital structures of Olympus Water US Holding Corp, and Level 3 Financing Inc. TI-B. Sector allocation had no material impact on performance over the period.

With respect to portfolio construction, we're keenly aware that rate cuts on investor's minds, and it is our imperative to lengthen duration when possible and where it makes the most sense. We remain positioned relatively defensively and are focused on employing bottom-up, fundamental analysis to pick credits which we believe have attractive risk-reward profiles. We're also keenly focused on avoiding cyclically challenged industries, and primarily aim to outperform through credit selection. In terms of sector positioning, we are overweight in food and beverage, metals and mining, and independent energy sectors. Our largest underweights are retailers, media and entertainment, and wirelines.

Looking ahead, we view the impending wave of bond maturities as posing minimal risk to the high yield asset class. The Bloomberg U.S. High Yield Issuer Constrained Index indicates only \$86 billion in high yield bond maturities scheduled for 2025, with more than half rated at a BB credit rating, suggesting relatively lower risk levels. In 2026, there will be \$162 billion in maturities. Even with an uptick in maturities extending into 2028, the market remains open for new high yield issuances, especially for companies not undergoing prolonged secular declines or facing unique idiosyncratic risks. Already, nearly \$60 billion in new issuances have emerged in the early months of 2024, with 86% directed towards refinancing debt maturing in 2027 and 2028. Barring unforeseen events, we anticipate that the perceived "looming" maturity wall will not trigger an escalation in default rates, underscoring the market's resilience and the adept management of refinancing requirements. Despite ongoing geopolitical tensions and macroeconomic challenges, including persistent inflation and changing rate cut expectations, we maintain an optimistic outlook on high yield prospects. While spreads are currently narrow, we anticipate a slight widening throughout the remainder of 2024. Nonetheless, the significant income generated by the high yield asset class is poised to offer appealing returns to investors. Our outlook does not foresee a rise in default rates, and several factors, including the manageable volume of upcoming maturities, robust balance sheets, and the potential for robust corporate earnings, contribute to a favorable outlook for high yield throughout the remainder of the year.

Global Property Securities Fund

For the six-month period ending 31 March 2024, the PGIF Global Property Securities Fund reported net performance of 13.49% compared to 13.80% for the index, FTSE EPRA NAREIT Developed NR USD Index.

After a strong performance in Q4 2023, REITs lagged equities once in Q1 2024 as interest rate cut expectations were dialed back. The portfolio underperformed the benchmark in the period principally from the underweight to the cyclical mall sector in the US which outperformed on resilient US economic data. Selection in Europe was also challenged by the underweight to a large cap French retail stock which rallied on harder of continued signs of improving operational metrics and rising expectations of ECB rate cuts. Within the period relative value was derived from stock selection, mainly from the Asia Pacific, namely Japan and Australia.

PRINCIPAL GLOBAL INVESTORS FUNDS
INVESTMENT ADVISER'S REPORT
for the period ended 31 March 2024 (continued)

Global Property Securities Fund (continued)

In Japan, exposure to more cyclical hospitality JREITs and large cap property developers that benefit from rising growth expectations were the main contributors. In Australia, owning stocks exposed to the data center thematic which benefitted from rising enthusiasm over artificial intelligence benefitted the portfolio.

We continue to believe that REITs offer an attractive investment opportunity with valuations looking very cheap both when measured against public equities and private real estate. Post the dovish March Federal Open Market Committee the Fed remains on course to deliver 3 rate cuts later this year, likely commencing from June despite resilient economic data. This is likely intended to pre-emptively ward off downside risks to the economy. Provided inflation continues to moderate, these rate cuts could allow the Fed to achieve the much talked about soft landing – a virtuous cocktail of decelerating inflation driven by easing supply side constraints and improving economic momentum. It is however fair to say that history is not on the Fed's side – most interest rate increases of such magnitude have tended to ultimately end in recession. Regardless of outcome, be it soft landing or recession, there is a strong case for owning REITs at this point in time. A soft-landing could mean the best possible outcome of positive absolute and relative returns for REITs. Rate cuts drive expectations of lower borrowing costs and discount rates which inordinately benefit capital intensive asset classes; meanwhile improving growth helps bolster the topline. Admittedly a recession may mean negative absolute returns for both broader equities and REITs however REITs have historically tended to be relatively defensive during such periods. Historical evidence suggests that REITs have delivered strong positive returns in the 12 months after real yields peaked.

Post Short Duration High Yield Fund

For the six-month period ending 31 March 2024, the PGIF Post Short Duration High Yield Fund reported net performance of 5.11%, compared to 2.80% for the index, ICE US Treasury 1-3 Year Bond Index.

Both the bond and loan allocations generated solid performance during the six-month period. The higher quality focus benefitted the Fund as assets rated BB and above outperformed assets rated single B and below. Almost all sub-sector sectors generated positive performance except for the electric sector, which was negative.

Despite increasing Treasury yields and disappointing inflation data, the Fund generated a solid return for the six-month period. New issue activity increased, particularly in the loan market, which allowed the Fund to be more active, consistent with the objective of maintaining an elevated yield and extending duration. During the period, the Fund decreased exposure to lower rated assets (single B and below) and increased exposure to higher rated assets (BB and above). In addition, the Fund decreased exposure to the automotive space, largely due to the upgrade of Ford Motor, and increased exposure to the leisure, gaming, and healthcare sub-sectors.

With credit spreads at or near cycle lows and the volatility index indicating little concerns, there is a lot of optimism priced into the high yield market. Arguably, investor optimism is too high which leaves little room for error if the economy were to decelerate, as we expect, or if the timing and the velocity of any rate cuts were further delayed. While the economy has proven resilient and it is likely that the rate hiking cycle is over, we are mindful that monetary policy will more than likely remain restrictive, which could put additional pressure on the consumer, the economy, corporate fundamentals, and credit spreads. Yet our view on the market remains balanced and our longer-term view is that spread widening will be more than offset by the elevated yields currently offered, and the higher quality focus of the Fund should provide a buffer to broader market volatility and credit deterioration.

Origin Global Emerging Markets Fund

For the six-month period ending 31 March 2024, PGIF Origin Global Emerging Markets Fund reported net performance of 13.13% compared to 10.42% for the index, the MSCI AC World Small Cap Index.

The Fund outperformed its benchmark during the six-month period. Stock selection within Financials provided the most significant positive effect at sector level, followed by stock selection within Consumer Discretionary. Geographically, stock selection within China was the leading contributor, while Korea was the leading detractor from relative performance.

Over the twelve-month period, the Fund's positions in Korea and Thailand were decreased in favour of Taiwan. Information Technology and Energy positions were also increased, mainly at the expense of Communication Services.

PRINCIPAL GLOBAL INVESTORS FUNDS
INVESTMENT ADVISER'S REPORT
for the period ended 31 March 2024 (continued)

Origin Global Emerging Markets Fund (continued)

Braver investors than us will try to time individual markets and sectors but with much increased volatility as a result. At times like this we feel it more important for us to stay focused on the Origin investment process and continue to bias portfolios towards high quality growing companies with reasonable valuations, above market EPS revisions and relative price strength.

Origin Global Smaller Companies Fund

For the six-month period ending 31 March 2024, the PGIF Origin Global Smaller Companies Fund reported net performance of 17.60% compared to 16.35% for the index, the MSCI AC World Small Cap Index.

The Fund outperformed its benchmark during the six-month period. Stock selection within Industrials provided the most significant positive effect at sector level, while Information Technology proved a marginal drag. Geographically, stock selection within North America was the standout contributor, followed by Asia ex Japan, while in Emerging Markets, it was marginally detracting.

Over the six-month period, the Fund's position in North America was increased, while Emerging Market exposure was decreased. Financials was also increased, mainly at the expense of Communications Services.

Braver investors than us will try to time individual markets and sectors but with much increased volatility as a result. At times like this we feel it more important for us to stay focused on the Origin investment process and continue to bias portfolios towards high quality growing companies with reasonable valuations, above market EPS revisions and relative price strength.

Finisterre Unconstrained Emerging Markets Fixed Income Fund

For the six-month period ending 31 March 2024, the PGIF Finisterre Unconstrained Emerging Markets Fixed Income Fund reported a net performance of 10.42%.

After a poor start to the fourth quarter of 2023 the global fixed income and United States dollar (USD) market turnaround which started in late October on a perceived relief from U.S. data strength and Federal Reserve (Fed) hawkishness, carried on unabated throughout November and December. Unsurprisingly in a global duration rally, most of the leading contributors had a rates flavour to them with our local bond positions in Mexico and Brazil performing strongly. Our only significant detractor was our index hedge position in EUR Itraxx Xover – while this proved a drag on performance, the squeeze tighter was in part due to a need to add risk during the illiquid holiday season. The first quarter of 2024 was characterised by tight trading ranges for Emerging Market Debt (EMD). February, the overzealous pricing of 7 rate cuts at the end of 2023 was pulled back in line with the 3 cuts guided by the FED due to continued strength in US economic data and sticky inflation prints. While this has provided a powerful backdrop for equities with the S&P breaking 5000 and continuing its march upwards there has been little volatility in the Emerging Market (EM) Credit space as both EM Sovereign and Corporate credit spreads have tightened more than 100bp on the quarter. Contrary to the tightness of spreads the start of 2024 has not been uneventful for EM, with several meaningful developments in idiosyncratic stories. Unsurprisingly in this EMD environment idiosyncratic names such as Ecuador, Argentina and Egypt formed our main contributors, with detractions coming in the form of our long US futures position, as the continued slurry of strong economic data out of the US has seen rates reprice higher. Our credit default swap high yield credit hedges have also struggled, again a result of resilience in the US economy tempering rate cut expectations.

We remain positive growth, risk and the continuation of the low volatility regime. The global bias to lower policy remains somewhat intact and, given the resilient growth backdrop across much of Developed Markets (DM) and EM, we remain constructive on EMD and expect to deliver strong returns from carry and idiosyncratic positions this year. With spreads looking less generous relative to recent history, we have become more selective in how we deploy credit in the portfolio. While maintaining our overall duration posture, we have reduced exposure to long duration, higher credit risk assets (20-30yr single B papers). We are comfortable owning optically tighter spreads in shorter duration high yield (where we are comfortable with the liquidity/refinancing picture) and in higher quality duration with good trading liquidity (momentum). We see the best total return opportunities in catalyst-rich stories like Argentina, Ecuador, Ukraine, and to a lesser extent now, Egypt and Zambia (alpha) and continue to run meaningfully accretive positions in this part of the portfolio.

We continue to think that frontier local markets are shaping up to be an attractive opportunity this year. After the last few years of extremely difficult global conditions, select frontier markets are now taking active policy measures to address accumulated macroeconomic imbalances. Policy makers in countries such as Nigeria, Egypt, Zambia and Kenya have started to deliver on reforms that improve foreign exchange market functioning, attract external financing, tighten monetary policy, cease debt monetisation and consolidate fiscal positions.

PRINCIPAL GLOBAL INVESTORS FUNDS
INVESTMENT ADVISER'S REPORT
for the period ended 31 March 2024 (continued)

U. S. Blue Chip Equity Fund

For the six-month period ending 31 March 2024, the PGIF U.S. Blue Chip Equity Fund reported net performance of 29.01% compared to 27.05% for the index, Russell 1000 Growth Index.

Fund outperformance was attributable to stock selection with companies owned in the consumer discretionary, financials and industrials sectors contributing the most. Company selection and allocation in the information technology sector detracted from relative performance in the period.

Strength in equity markets broadened out over the past six months, from the heavy concentration earlier last year. The Fund benefited from having large weights in a diverse mix of businesses, with top relative contributors coming from industrial, financial and consumer discretionary companies. Sector weights are an outcome of the bottom-up fundamental research process. The largest sector weights this period were financials, information technology and consumer discretionary. The financial companies held by the fund are payments businesses and alternative asset managers, more fee-based businesses who are less balance sheet intensive. Technology holdings are software businesses who are deeply ingrained in their customer's daily operations. In consumer stocks, the portfolio does not invest in cyclical traditional retailers but rather specialty retail or hospitality businesses with wide competitive moats.

Given the team's time horizon as long-term, fundamental investors that commonly own shares in companies for several years, they do not have a near-term market outlook. They continue to seek opportunities to invest in high quality companies that are managed by owner-operators and trade at a discount to team's estimate of intrinsic value.

Asian High Yield Fund

For the six-month period ending on 31 March 2024, the PGIF Asian High Yield Fund reported net performance of 9.84% compared to 13.43% for the index, ICE BofA Asian Dollar HY TR USD Index.

The Fund underperformed its benchmark over the period due to sector allocation and security selection. The main source of underperformance of the fund was the significant cash holdings which underperformed in a rallying market. In the individual sectors, the fund's underweights in frontier sovereigns, real estate and financial services were major drags as these sectors continued to rebound from oversold conditions. The fund was defensively positioned overall due to the ongoing rate hikes by the US Federal Reserve and slower than expected Chinese economic rebound, and experienced drag vs benchmark as a result. Security selection was also a detractor due to the divergent price trends within the China real estate sectors as the lower cash priced and deeply distressed bonds outperformed; and outperformance of the higher beta names within the other sectors such as basic industry, leisure, financial services and utility where bonds trading at wide spreads benefited from the market rally. On the other hand, the fund benefited from its overweight position in banking, utility and energy sectors, albeit these sectors performed the broader market due to their lower beta status; however these positive contributors were insufficient to offset the drags from the aforementioned negative factors. Over the period, the fund benefited from positive absolute return contributions from all major sectors in the Asia high universe. The major sectors that contributed to positive absolute returns were frontier sovereign, leisure, real estate, utility, basic industry, banking and capital goods.

Asia high yield markets have outperformed during the 6 months ending March 2024 with returns continuing to stay in positive territory despite the ongoing pressures in the China real estate sector. The Fund's strategy remains focused on bottom-up credit selection in view of the higher default rates in China property HY as well as increased allocation to non-property HY which have a better fundamental outlook. The overall underweight in Asia high yield is coupled with off benchmark positions in investment grade rated issuers where the risk reward is reasonable, and the carry is attractive. The fund continues to run higher than typical cash levels that can be deployed when the outlook on the real estate sector improves or when the volatility in global markets subsides. Even as China HY trades in a choppy manner, we continue to see value in the asset class with attractive valuations, lowered exposure to China real estate, even as global credit spreads have compressed. Weaker fundamentals in China HY require forceful policy response which have come in small doses rather than one significant announcement.

We continue to believe the impact of the Federal Reserve's (Fed) aggressive monetary tightening has yet to be fully realized and continue to expect economic data to soften into the end of the year. In China, we expect pressures to sustain in the near-term as translation of policy into implementation takes time and onshore sentiment remains depressed despite recent improvements. In non-China Asia, we prefer the stronger fundamental stories in India and Indonesia, as well as better positioned names in China, outside of real estate. We are watching for better restructuring outcomes and improved market liquidity to be introduced back into the space to realize its underlying value.

PRINCIPAL GLOBAL INVESTORS FUNDS
INVESTMENT ADVISER'S REPORT
for the period ended 31 March 2024 (continued)

Asian High Yield Fund (continued)

Since it may be months away before the Fed shifts to an easing cycle, and China property remains under stress, we expect the markets to consolidate in the near-term and be led by the evolution of macroeconomic conditions in the U.S., with Asian HY continuing to offer a less correlated and value option.

Finisterre VAG Unconstrained EM Fixed Income Fund

For the six-month period ending 31 March 2024, the PGIF Finisterre VAG Unconstrained EM Fixed Income Fund reported a net performance of 7.94%.

After a poor start to the fourth quarter of 2023 the global fixed income and United States dollar (USD) market turnaround which started in late October on a perceived relief from U.S. data strength and Federal Reserve (Fed) hawkishness, carried on unabated throughout November and December. Unsurprisingly in a global duration rally, most of the leading contributors had a rates flavour to them with our local bond positions in Mexico and Brazil performing strongly. Our only significant detractor was our index hedge position in EUR Itraxx Xover – while this proved a drag on performance, the squeeze tighter was in part due to a need to add risk during the illiquid holiday season. The first quarter of 2024 was characterised by tight trading ranges for Emerging Market Debt (EMD). February, the overzealous pricing of 7 rate cuts at the end of 2023 was pulled back in line with the 3 cuts guided by the FED due to continued strength in US economic data and sticky inflation prints. While this has provided a powerful backdrop for equities with the S&P breaking 5000 and continuing its march upwards there has been little volatility in the Emerging Market (EM) Credit space as both EM Sovereign and Corporate credit spreads have tightened more than 100bp on the quarter. Contrary to the tightness of spreads the start of 2024 has not been uneventful for EM, with several meaningful developments in idiosyncratic stories. Unsurprisingly in this EMD environment idiosyncratic names such as Ecuador, Egypt and Nigeria formed our main contributors, with detractions coming in the form of our long US futures position, as the continued slurry of strong economic data out of the US has seen rates reprice higher. Our credit default swap high yield credit hedges have also struggled, again a result of resilience in the US economy tempering rate cut expectations.

We remain positive growth, risk and the continuation of the low volatility regime. After the last few years of extremely difficult global conditions, select frontier markets are now taking active policy measures to address accumulated macroeconomic imbalances. Policy makers in countries such as Nigeria, Egypt, and Kenya have started to deliver on reforms that improve FX market functioning, attract external financing, tighten monetary policy, cease debt monetisation and consolidate fiscal positions.

Finisterre Emerging Markets Debt Euro Income Fund

For the six-month period ending 31 March 2024, the PGIF Finisterre Emerging Markets Debt Euro Income Fund reported a net performance of 9.15%.

After a poor start to the fourth quarter of 2023 the global fixed income and United States dollar (USD) market turnaround which started in late October on a perceived relief from U.S. data strength and Federal Reserve (Fed) hawkishness, carried on unabated throughout November and December. Unsurprisingly in a global duration rally, most of the leading contributors had a rates flavour to them with our local bond positions in Mexico, Colombia and Brazil performing strongly. The first quarter of 2024 was characterised by tight trading ranges for Emerging Market Debt (EMD). February, the overzealous pricing of 7 rate cuts at the end of 2023 was pulled back in line with the 3 cuts guided by the FED due to continued strength in US economic data and sticky inflation prints. While this has provided a powerful backdrop for equities with the S&P breaking 5000 and continuing its march upwards there has been little volatility in the Emerging Market (EM) Credit space as both EM Sovereign and Corporate credit spreads have tightened more than 100bp on the quarter. Contrary to the tightness of spreads the start of 2024 has not been uneventful for EM, with several meaningful developments in idiosyncratic stories. Unsurprisingly in this EMD environment idiosyncratic names such as Egypt and Nigeria formed our main contributors.

PRINCIPAL GLOBAL INVESTORS FUNDS
INVESTMENT ADVISER'S REPORT
for the period ended 31 March 2024 (continued)

Finisterre Emerging Markets Debt Euro Income Fund (continued)

We remain positive growth, risk and the continuation of the low volatility regime. The global bias to lower policy remains somewhat intact and, given the resilient growth backdrop across much of Developed Markets (DM) and EM, we remain constructive on EMD and expect to deliver strong returns from carry and idiosyncratic positions this year. With spreads looking less generous relative to recent history, we have become more selective in how we deploy credit in the portfolio. While maintaining our overall duration posture, we have reduced exposure to long duration, higher credit risk assets (20-30yr single B papers). We are comfortable owning optically tighter spreads in shorter duration high yield (where we are comfortable with the liquidity/refinancing picture) and in higher quality duration with good trading liquidity (momentum). We see the best total return opportunities in catalyst-rich stories like Egypt and continue to run meaningfully accretive positions in this part of the portfolio.

We continue to think that frontier local markets are shaping up to be an attractive opportunity this year. After the last few years of extremely difficult global conditions, select frontier markets are now taking active policy measures to address accumulated macroeconomic imbalances. Policy makers in countries such as Nigeria, Egypt, and Kenya have started to deliver on reforms that improve FX market functioning, attract external financing, tighten monetary policy, cease debt monetisation and consolidate fiscal positions.

Global Sustainable Listed Infrastructure Fund

For the six-month time-period from 1 October 2023 to 31 March 2024 the PGIF Global Sustainable Listed Infrastructure Fund reported net performance of 11.75%, compared to 12.57% for the index, FTSE Global Core Infra 50/50 NR USD Index.

Global equity markets rallied to start 2024 on the back of economic resilience and heightened enthusiasm for artificial intelligence. Listed infrastructure underperformed global equities as the market digested resilient U.S. economic data and upside surprises to inflation during the quarter. The Fund underperformed its benchmark over the trailing six months as an underweight to and security selection within Asia detracted. Key drivers were underweights to India and the marine ports subsector, partially offset by an overweight to the Chinese cell phone tower sector. Indian equities remained a popular destination for global capital flows, and marine ports benefitted as investors paid more attention to the re-shoring theme and sought out likely beneficiaries of potential supply chain shifts away from China. Within Europe, exposure to a renewables developer was a key underperformer where the back up in US bond yields to start 2024 served as a major headwind. Cash also contributed negatively over the period. Selection within US utilities on demand trends related to data center development within their service territories. Several US utility companies we do not hold also experienced challenging regulatory updates during the period. Further, an underweight to Australian transportation infrastructure contributed positively.

The portfolio construction process remains focused on bottom-up stock selection. The sharp underperformance of listed infrastructure in 2023 has continued to start 2024 and offers an opportunity for us to orient the portfolio around high quality, structurally advantaged stocks trading at material discounts to our view of intrinsic value. We continue to maintain exposure to companies that we expect to show outsized earnings resilience, which is a key driver of our overweight to the cell phone tower subsector and recent purchases of utility and renewables stocks. We have also been placing heightened emphasis on companies with relative balance sheet strength. Although we expect our portfolio will perform best as economic growth weakens and/or central banks begin cutting rates, we remain diligent in constructing a portfolio that can withstand shifts in performance leadership resulting from macro news flow.

Listed infrastructure continues to screen at historically cheap levels vs. global equities, creating a compelling entry point. We expect 2024 will ultimately be characterized by decelerating growth and a backdrop of inflation that exceeds long-term averages. This combination has historically been positive for the relative performance of listed infrastructure. Infrastructure stocks should ultimately benefit from more resilient fundamentals as economic growth slows and will be especially well-positioned if slowing growth coincides with unanticipated shocks and/or downward pressure on bond yields. Infrastructure businesses enjoy numerous contractual and regulatory protections that are designed to enable them to operate from positions of financial strength in a variety of macroeconomic environments. As infrastructure businesses are capital intensive, higher interest rates have had a modest impact on earnings. We believe the magnitude of these headwinds is more than reflected in the stock prices of many companies at a time when funding costs are off the peak and a reversing interest rate trend could start to be a tailwind over the next 12 months. Overall, we still expect structural growth drivers for listed infrastructure companies such as the energy transition and technological innovation to remain tailwinds that outlast today's macro concerns.

PRINCIPAL GLOBAL INVESTORS FUNDS
INVESTMENT ADVISER'S REPORT
for the period ended 31 March 2024 (continued)

CCB Principal China New Energy Innovation Fund

For the six-month period ending 31 March 2024, PGIF CCB China New Energy Innovation Fund reported net performance of -8.61% compared to -13.93% for the index, CSI New Energy Index.

The New Energy sector witnessed a significant downturn in the period, markedly underperforming the broad market index. From a fundamental perspective, the photovoltaic sector experienced robust domestic demand exceeding expectations, alongside a recovery in overseas demand. However, the industry still grapples with overcapacity pressures in 2024, leading to a significant declines in unit profitability. Meanwhile, domestic demand for new energy vehicles remains stable, with increasing penetration rates and rapid development of intelligent driving technology. However, the lithium battery materials segment faces overcapacity challenges. Progress in wind power installation has been slower than expected due to various factors, although breakthroughs in policy have been achieved in certain offshore wind power projects. In summary, the prominent challenge facing the new energy industry is overcapacity. We anticipate a significant alleviation of overcapacity issues in certain sub-sectors by 2025. In the medium term, we believe the valuation of the new energy sector is at historical lows, indicating a favorable time for strategic positioning.

The Fund maintains a neutral position, avoiding segments susceptible to overcapacity risks such as lithium battery materials and silicon materials. We are overweight in areas such as automotive components, intelligent driving, and offshore wind power, and have opportunistically increased positions in leading companies with strong performance.

Regarding the macroeconomic outlook, since the meeting of the Political Bureau of the Central Committee in July, efforts to stabilize growth have been continuous. Stimulus measures in the capital market, easing of real estate policies, and continued resolution of debt risk have been implemented. The Central Economic Work Conference has explicitly emphasized the "pro-stability" policy direction, with policies conducive to stabilizing expectations, growth, and employment. We assess that the most intense period of economic pressure has passed. Policy measures continue to be strengthened to stabilize the real estate sector and stimulate consumer spending. Local government debt management has entered a critical phase, with prices gradually emerging from deflation. This is expected to drive nominal GDP growth, subsequently restoring corporate profitability and household income. The revival of domestic demand is expected to catalyze the mobility of social funds and foster positive business expectations. Regarding the new energy sector, we believe that the period of greatest downward pressure has passed, and future prospects hinge on the pace of market clearing. We maintain our long-term bullish view on the industry, driven by its significant growth potential, low penetration rates, strong competitiveness of China's new energy industry, and continued rapid growth in medium-term demand. After a significant drawdown phase, the valuation of the new energy industry is now at historical lows. Leading companies in segments with high barriers to entry are expected to maintain market share and reasonable profit levels. At current valuation levels, these companies offer long-term investment value. New technological advancements in the new energy sector continue to emerge, presenting ongoing investment opportunities in new sub-sectors. However, amidst the current macroeconomic and financial environment, the A-share market and the new energy industry are expected to continue their progress in structural evolution. We will actively seek opportunities for rotation between different sub-sectors.

Principal High Grade Capital Securities Fund

For the period from Fund launch to 31 March 2024, the PGIF Principal High Grade Capital Securities Fund reported net performance of 1.40% compared to 1.51% for the index, ICE BofA Euro Subordinated Financial Index. The Fund was launched on 26 February 2024.

Rates decreased across the US, German and UK yield curves while spreads tightened in March contributing to positive performance. The US Fed raised growth and inflation forecasts resulting in expectations for a steeper yield curve. At a recent summit in Brussels, Christine Lagarde the President of the ECB told Euro area leaders that she expects the easing of inflation in the Eurozone to persist thanks to the effectiveness of monetary policy. The market expects that the ECB could start cutting rates in June. In this regard the ECB will take the lead from the Fed as inflation is cooling faster in the Eurozone. The Insurance Subordinated debt in the portfolio had a strong period of performance, specifically, the top contributors were longer duration bonds that benefitted from spread tightening this period in names such as Allianz, NN Group and Sampo. The Bank Subordinated debt bonds in the portfolio also performed positively with top contributors from names HSBC, Svenska and Santander, as did the corporate hybrids in the portfolio with top contributors in issues from AT&T, Iberdrola BP PLC.

PRINCIPAL GLOBAL INVESTORS FUNDS
INVESTMENT ADVISER'S REPORT
for the period ended 31 March 2024 (continued)

Principal High Grade Capital Securities Fund (continued)

The Fund is a high quality, conservative approach to investing in EUR Capital Securities and Corporate hybrids with an emphasis on lower volatility. Every security is rating investment grade by using the best rating of Moody's, S&P and Fitch and the average investment grade of the fund is currently BBB+. The fund invests in Banks and Insurance Capital Securities (Tier2) and corporate hybrids. The High Grade fund does not invest in Cocos. As of the end of March, the "High Grade Fund" had a yield to maturity of 5.32%, a yield to call of 5.47% and a yield to worst of 5.04% with an effective duration of 4.02 and an average rating of BBB+. In contrast, the yield to worst on the ICE Euro Corporate Senior Index was 3.59% with an effective duration of 4.6 and a rating of A-. Therefore, on a yield to worst basis the portfolio has 145 bps of excess yield relative to IG seniors.

European bank shares as evidenced by the Stoxx Europe 600 Banks Index are at six-year highs. This performance in Bank equity has been driven by strong banking fundamentals, a higher interest rate environment and the return of capital by Banks. ECB rate cuts should be supportive of valuation for Bank Tier2 and AT1. Rate cuts while applying downward pressure could bolster underlying economies and support asset quality for Banks. Promised return of capital of €120 billion to shareholders this year should be supportive of European bank valuations and by extension their credit spreads. Higher interest rates are supportive of capitalization under Solvency 2 regulations enabling insurers to earn better risk adjusted returns. Insurers across Europe are expected to continue to issue Solvency 2 eligible capital instruments – including Restricted Tier 1 (RT1) and Tier 2 – while replacing legacy securities to optimize their strong capital positions ahead of the end of the 10-year grandfathering period.

Principal Capital Securities Fund

For the period from Fund launch to 31 March 2024, the PGIF Principal Capital Securities Fund reported net performance of 0.30% compared to 0.41% for the index, ICE BofA Euro Subordinated Financial Index. The Fund was launched on 13 March 2024.

Rates decreased across the US, German and UK yield curves while spreads tightened in March contributing to positive performance. The US Fed raised growth and inflation forecasts resulting in expectations for a steeper yield curve. At a recent summit in Brussels, Christine Lagarde the President of the ECB told Euro area leaders that she expects the easing of inflation in the Eurozone to persist thanks to the effectiveness of monetary policy. The market expects that the ECB could start cutting rates in June. In this regard the ECB will take the lead from the Fed as inflation is cooling faster in the Eurozone.

The Insurance Subordinated debt in the portfolio had a strong period of performance, specifically, the top contributors were longer duration bonds that benefitted from spread tightening this period in names such as Allianz, Swiss Re Finance UK and Sampo. The Bank Subordinated debt bonds in the portfolio also performed positively with top contributors from names Danske Bank, Lloyds and Natwest, as did the corporate hybrids in the portfolio with top contributors in issues from BP, Iberdrola and Orange.

The Fund is a diversified, conservative and quality approach to investing in Capital Securities and hybrids with an emphasis on lower volatility. The average rating must be Investment grade, with no more than 20% in non-investment grade and no more than 30% in contingent convertibles. As of the end of March, the "Capital Securities Fund" had a yield to maturity of 5.32%, a yield to call of 5.47% and a yield to worst of 5.04% with an effective duration of 4.02 and an average rating of BBB+. In contrast, the yield to worst on the ICE Euro Corporate Senior Index was 3.59% with an effective duration of 4.6 and a rating of A-. Therefore, on a yield to worst basis the portfolio has 145 bps of excess yield relative to IG seniors.

European bank shares as evidenced by the Stoxx Europe 600 Banks Index are at six-year highs. This performance in Bank equity has been driven by strong banking fundamentals, a higher interest rate environment and the return of capital by Banks. ECB rate cuts should be supportive of valuation for Bank Tier2 and AT1. Rate cuts while applying downward pressure could bolster underlying economies and support asset quality for Banks. Promised return of capital of €120 billion to shareholders this year should be supportive of European bank valuations and by extension their credit spreads. Higher interest rates are supportive of capitalization under Solvency 2 regulations enabling insurers to earn better risk adjusted returns. Insurers across Europe are expected to continue to issue Solvency 2 eligible capital instruments – including Restricted Tier 1 (RT1) and Tier 2 – while replacing legacy securities to optimize their strong capital positions ahead of the end of the 10-year grandfathering period.

PRINCIPAL GLOBAL INVESTORS FUNDS
NOTES TO THE INTERIM REPORT AND FINANCIAL STATEMENTS
for the period ended 31 March 2024

1. FORMATION

The Principal Global Investors Funds (“the Trust”) was constituted under the laws of Ireland by a Trust Deed dated 13 October 1992 as an open-ended umbrella Unit Trust established as an Undertaking for Collective Investment in Transferable Securities (“UCITS”). It is an umbrella Unit Trust in that different classes of units may be issued from time to time by the Manager. The Unit Trust has created a number of sub-funds (the “Funds”). Units of certain classes of the Trust were delisted from the Euronext Dublin (formerly the Irish Stock Exchange) on 13 May 2022. The Trust has been authorised by the Central Bank of Ireland (the “Central Bank”) pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011, (as amended) and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) (Amendment) Regulations 2019 (the “Central Bank UCITS Regulations”).

The financial statements have been prepared for the period ended 31 March 2024.

The Funds of the Trust are listed on pages 4–8. The Portfolios of Investments are listed on pages 23–85.

2. PRINCIPAL ACCOUNTING POLICIES

Accounting Convention and Basis of Accounting

These condensed interim unaudited financial statements for the period ended 31 March 2024 have been prepared in accordance with accounting standards generally accepted in Ireland (“Irish GAAP”) including Financial Reporting Standard (“FRS”) 104 - Interim Financial Reporting (“FRS 104”), “The Financial Reporting Standard applicable in the United Kingdom and Republic of Ireland” and certain provisions of the UCITS Regulations and the Hong Kong Securities and Futures Commission’s Code on Unit Trusts and Mutual Funds. Irish GAAP used in preparing financial statements which present a true and fair view are those standards issued by the Financial Reporting Council (“FRC”).

The Trust has availed of the exemption available to open ended investment Funds that hold a substantial proportion of highly liquid and fair valued investments under Section 7 “Statement of Cash Flows” of FRS 102, also referenced in section 15(g) of FRS 104 and is not presenting cash flow statements.

The Directors have a reasonable expectation that the Trust has adequate resources to continue in operational existence for the foreseeable future. The report has been prepared for all Funds in the Trust on a going concern basis. The report has been prepared for all Funds in the Trust under the historical cost convention, as modified by the revaluation of financial assets at fair value through profit or loss. The report has been prepared in USD for all Funds except Finisterre Emerging Markets Debt Euro Income Fund, Principal High Grade Capital Securities Fund and Principal Capital Securities Fund. The functional currency of Finisterre Emerging Markets Debt Euro Income Fund, Principal High Grade Capital Securities Fund and Principal Capital Securities Fund is Euro. The functional and presentation currency of the Trust’s is USD.

The format and certain wordings of the financial statements have been adapted from those contained in Irish statute so that, in the opinion of the Directors, they more appropriately reflect the nature of the Trusts business as an investment Fund.

The information required by FRS 102, to be included in a single statement of comprehensive income for the reporting period displaying all items of income and expense recognised during the period including those items recognised in determining profit or loss and items of other comprehensive income and a Reconciliation of Movements in Unitholders’ Funds are, in the opinion of the Directors, contained in the Statements of Comprehensive Income and the Statements of Movement in Net Assets Attributable to Redeemable Participating Unitholders. In arriving at the results for the period, all amounts in the Statements of Comprehensive Income relate to continuing activities. In the opinion of the Directors, the financial statements give, in all other respects, the information required by the UCITS Regulations and the Hong Kong Securities and Futures Commission’s Code on Unit Trusts and Mutual Funds.

All gains or losses for the period are reflected in the Statements of Comprehensive Income.

The significant accounting policies adopted by the Trust are set out overleaf. These policies have been consistently applied to the financial periods presented unless otherwise stated.

PRINCIPAL GLOBAL INVESTORS FUNDS
NOTES TO THE INTERIM REPORT AND FINANCIAL STATEMENTS
for the period ended 31 March 2024 (continued)

2. PRINCIPAL ACCOUNTING POLICIES (continued)

Financial Instruments at Fair Value through Profit or Loss

Under FRS 102, in accounting for its financial instruments a reporting entity is required to apply either (a) the full provisions of Section 11 "Basic Financial Instruments" and Section 12 "Other Financial Instruments Issues" of FRS 102, (b) the recognition and measurement provisions of International Accounting Standards ("IAS") 39 "Financial Instruments: Recognition and Measurement" ("IAS 39") and only the disclosure requirements of Sections 11 and 12 of FRS 102; or (c) the recognition and measurement provisions of International Financial Reporting Standards ("IFRS") 9 "Financial Instruments" ("IFRS 9") and the disclosure requirements of Sections 11 and 12. The Trust has elected to apply the recognition and measurement provisions of IAS 39 and the disclosure requirements of Sections 11 and 12.

This category has two sub-categories: financial assets and liabilities held for trading, and those designated by the Valuation Committee of the Manager at fair value through profit or loss at inception. All instruments on the Portfolio of Investments are classified as held at fair value through profit or loss. Subsequent to initial recognition, all instruments classified at fair value through profit or loss are measured at fair value with changes in their fair value recognised in the Statement of Comprehensive Income. Financial assets are derecognised when the rights to receive the cashflow from the investments have expired or the Funds have transferred substantially all of the risks or rewards of ownership.

Accounting for Investments

Investments are recognised at the trade date at last traded prices. Realised gains or losses on investment disposals are calculated using the average cost method. Realised gains or losses on investment transactions in debt instruments are calculated using the amortised cost method based on the effective interest rate.

Valuation of Investments

The period end valuation date was 31 March 2024, the last business day of the interim period. Securities listed on a recognised stock exchange or traded on any other organised market, are valued at the current-price at each valuation point on the stock exchange or market which constitutes the principal market for such securities. If trades are received after the dealing cut-off time they will be accounted for in the next valuation. If for specific assets the current prices do not, in the opinion of the Manager, reflect their fair value or are not available, the price of the most recent transaction provides evidence of the current fair value as long as there has not been a significant change in economic circumstances since the time of the transaction or the Manager may also apply a fair value adjustment where they deem appropriate in order to reflect fair value.

In the case of any security not listed, quoted or dealt on a regulated market or for which no quotation or value is available which would provide a fair valuation, or in respect of which the price is unrepresentative, the fair value of such security is determined on the basis of the probable realisation value and is determined by the Investment Adviser, Sub-Investment Adviser(s), a stockbroker or other competent person appointed by the Manager and approved for the purpose by the Trustee, using valuation techniques.

Futures

A futures contract obligates one party to sell and the other party to purchase a specific instrument for an agreed price at an agreed future date. Futures may be used subject to the conditions and limits laid down by the Central Bank and the Trust Deed and subject to any other restrictions or regulations which may affect the portfolio management of the Funds or the Investment Adviser/Sub-Investment Adviser(s). Certain Funds may buy or sell futures to provide an efficient, liquid and effective method for the management of risks by "locking in" gains and/or protecting against future declines in value. The fair value of open future contracts is calculated as the difference between the contracted rate and the current rate that would close out the contract on the Statement of Financial Position date. Gains or losses on futures are included in the Unrealised Gain/(Loss) on Open Future Contracts on the Statement of Financial Position and are shown in the Portfolio of Investments. When the contract is terminated, the Funds will recognise a realised gain or loss in the Statement of Comprehensive Income equal to the difference between the value of the contract at the time it was entered into and the time it was closed.

Forward Foreign Currency Exchange Contracts

In a Forward Foreign Currency Exchange Contract, the Funds agree to receive or deliver a fixed quantity of one currency for another, at a pre-determined price at a future date. The fair value of Forward Foreign Currency Exchange Contracts is calculated as the difference between the contracted rate and the current forward rate that would close out the contract on the Statement of Financial Position date. Gains or losses on Forward Foreign Currency Exchange Contracts are included in the Unrealised Gain/(Loss) on Forward Foreign Currency Exchange Contracts on the Statement of Financial Position and are shown in the Portfolio of Investments. Any realised gains or losses are recognised in the Statement of Comprehensive Income at trade date. The Funds may enter into these contracts to hedge against changes in currency exchange rates. The Forward Foreign Currency Exchange Contracts are used to hedge the currency exposure on individual positions taken by the Funds and to hedge certain non base currency units.

for the period ended 31 March 2024 (continued)

2. PRINCIPAL ACCOUNTING POLICIES (continued)

Spot Currency Contracts

In a Spot Currency Contract the Fund agrees to receive or deliver a fixed quantity of one currency for another, at a pre-determined price at a future date (the spot date). This date is typically within three business days of inception of the contract. The fair value of Open Spot Currency Contracts is calculated as the difference between the contracted rate and the current forward rate that would close out the contract on the Statement of Financial Position date. Gains or losses on Spot Currency Contracts are included in the Unrealised Gain/(Loss) on Open Spot Currency Contracts on the Statement of Financial Position and are shown in the Portfolio of Investments. Any realised gains or losses are recognised in the Statement of Comprehensive Income at trade date.

Credit Default Swaps

A Credit Default Swap is a credit derivative transaction in which two parties enter into an agreement, whereby one party pays the other a fixed periodic coupon for the specified life of the agreement. The other party makes no payments unless a credit event, relating to a predetermined reference asset occurs. If such an event occurs, the party will then make a payment to the first party and the swap will terminate. When the swap terminates any realised gains or losses arising are reflected in the Statement of Comprehensive Income as part of the Net Gain/(Loss) on investment activities. A Credit Default Swap provides the Fund with an alternative to investing in assets themselves for a potentially higher return with the same risk or they may be used to obtain exposure to assets which the Fund could not otherwise acquire due to illiquidity in the relevant market. The Fund recognises the swap when it becomes party to the contract. The Credit Default Swaps are marked to market daily based upon quotations from market makers and recorded in the Statement of Financial Position as Market Value Gain/(Loss) on Swap Contracts.

Term Loans

The Fund begins earning interest from settlement date of the trade. The loans pay interest at an assigned rate. A Fund investing in such a loan assumes the credit risk of the borrower and there could be potential loss to the Fund in the event of default by the borrower. Term loans are priced at quoted market prices or independently vendor priced, or at cost when vendor prices are unavailable. The change in unrealised gains and losses or any realised gains or losses arising on the loans are shown in Net Gain/(Loss) on investment activities in the Statement of Comprehensive Income.

Interest Rate Swaps

An Interest Rate Swap is a bilateral agreement in which each of the parties agrees to exchange a series of interest payments for another series of payments (usually fixed/floating) based on a notional amount that serves as a computation basis and that is usually not exchanged. The Interest Rate Swaps are marked to market daily based upon quotations from market makers and recorded in the Statement of Financial Position as Market Value Gain/(Loss) on Swap Contracts. When the swap terminates any gains or losses arising are reflected in the Statement of Comprehensive Income as part of the Net Gain/(Loss) on investment activities.

Total Return Swaps

A Total Return Swap is a financial contract whereby one party agrees to pay another party the total return of a defined asset in return for receiving a floating rate return. The Trust enters into unfunded swap agreements on behalf of the Fund. Total Return Swaps are marked to market using valuation sources/methods and the fair value is recorded in the Statement of Financial Position as Market Value Gain/(Loss) on Swap Contracts. The change in unrealised gains and losses or any realised gains or losses arising on termination are shown in Net Gain/(Loss) on investment activities in the Statement of Comprehensive Income.

Foreign Currency Transactions

In accordance with Section 30 "Foreign Currency Translation" of FRS 102, items included in the individual Fund's financial statements are measured using the currency of the primary economic environment in which it operates (functional currency). The Fund's selection of the functional currency is attributable to the functional currency being: a) the major component of the Fund's benchmark and b) the common proxy for most clients in the Fund's varied client base. The functional currency assessment was completed at a Fund level. The Funds' presentation currencies equated to their respective functional currencies when assessed under FRS 102. The functional currency of each Fund of the Trust is USD except for the Finisterre Emerging Markets Debt Euro Income Fund. The functional currency of Finisterre Emerging Markets Debt Euro Income Fund, Principal High Grade Capital Securities Fund and Principal Capital Securities Fund is Euro.

PRINCIPAL GLOBAL INVESTORS FUNDS
NOTES TO THE INTERIM REPORT AND FINANCIAL STATEMENTS
for the period ended 31 March 2024 (continued)

2. PRINCIPAL ACCOUNTING POLICIES (continued)

Foreign Currency Transactions (continued)

For each Fund:

- (i) Currency gains or losses can arise where there is a difference between the amounts of foreign dividends and interest recorded on the Fund's books and the Fund's functional currency equivalent of the amounts actually received or paid. These gains or losses are included where appropriate in the dividend net gain/(loss) on investment activities figure in the individual Fund's Statement of Comprehensive Income;
- (ii) Currency gains or losses realised on securities purchases and sales transactions are included in Net Gain/(Loss) on investment activities in the individual Fund's Statement of Comprehensive Income;
- (iii) Unrealised currency gains or losses on securities held at year end are included in Net Gain/(Loss) on investment activities in the individual Fund's Statement of Comprehensive Income; and
- (iv) Monetary assets and liabilities denominated in currencies other than the Fund's functional currency are translated at the rate of exchange ruling at the close of business on the Statement of Financial Position date and exchange differences are included in Net Gain/(Loss) on investment activities in the individual Fund's Statement of Comprehensive Income.

Income from Investments

Dividends are credited to the Statement of Comprehensive Income on the dates on which the relevant securities are listed as "ex-dividend". Interest income is accounted for daily on an effective yield basis. Income is shown gross of any non-recoverable withholding taxes, which are disclosed separately in the Statement of Comprehensive Income, and net of any tax credits. Realised gains or losses on investment transactions in debt instruments are calculated using the amortised cost method based on the effective interest rate. Dividend income due to the Fund is reported as Dividends Receivable in the Statement of Financial Position.

Net Gain/(Loss) on Investment Activities

In respect of each instrument type classified as Financial Instruments at Fair Value through Profit or Loss, the movement in unrealised gains/(losses) since the prior period end and realised gains/(losses) are included in Net Gain/(Loss) on investment activities in the Statement of Comprehensive Income. Interest earned on fixed income securities such as bonds is included here also.

Due to Unitholders

Due to unitholders represent monies received from investors for the purchase of shares, but for which shares have not been issued at the statement of financial position date. Due to Unitholders are recognised at a price per unit equal to the Net Asset Value per Redeemable Participating Unit on the relevant Dealing Day.

Due from Unitholders

Due from Unitholders represent monies received in respect of redemptions which is due to be paid to investors for the redemption of shares, but for which have not been redeemed at the statement of financial position date. Due from Unitholders are recognised at a price per unit equal to the Net Asset Value per Redeemable Participating Unit on the relevant Dealing Day.

Expenses

Operating expenses are recognised on an accruals basis in the Statement of Comprehensive Income.

Anti-Dilution Levy

The Board of Directors of the Manager may exercise its discretion to apply an anti-dilution levy in relation to subscriptions and redemptions of units. The levy is a charge for transaction costs that may be deducted from the NAV per Unit of the relevant class to reflect the costs of acquiring or disposing of underlying assets to Fund subscriptions or redemptions from the Fund, respectively. The levy is intended to be used to ensure that all investors in the Trust are treated equitably by allocating transaction costs to the investors whose transactions give rise to those costs. For the period ended 31 March 2024, there was anti-dilution levies charged on the following Fund: Global High Yield Fund \$21,148. For the year ended 30 September 2023, there was anti-dilution levies charged on the following funds: European Responsible Equity Fund \$114,858, Origin Global Smaller Companies Fund \$10,073 and U.S. Blue Chip Equity Fund \$39,051.

2. PRINCIPAL ACCOUNTING POLICIES (continued)

Cash at Bank

Cash is valued at amortised cost, which approximates fair value. Cash is held with The Bank of New York Mellon SA/NV, Dublin Branch.

Cash Collateral & Pledged Collateral

Cash collateral provided by each Fund is identified in the Statement of Financial Position as cash collateral held and is not included as a component of Cash at Bank. For collateral other than cash, if the party to whom the collateral is provided has the right by contract or custom to sell or repledge the collateral, the Fund classifies that asset in its Statement of Financial Position separately from other assets and identifies the asset as Securities pledged as collateral. Where the party to whom the collateral is provided does not have the right to sell or repledge, a disclosure of the collateral provided is made in the notes to the financial statements. Any obligation arising from collateral received is measured at the fair value of the amount required to settle the obligation and separately identified in the Statement of Financial Position.

Margin Cash Receivable/Payable

Margin Cash Receivable/Payable to the Trust in relation to the open Futures Contracts and open Swap Contracts is identified in the Statement of Financial Position as Margin Cash Receivable/Payable and is not included as a component of Cash at Bank. Margin Cash Receivable and Margin Cash Payable at 31 March 2024 and 30 September 2023 is detailed as part of Note 4.

Distributions

The Global Responsible Equity Fund declares and pays annual distributions to Unitholders holding the A Income Unit Class.

The European Responsible Equity Fund declares and pays annual distributions to Unitholders holding the A Income Unit Class.

The Global Property Securities Fund declares and pays annual distributions to Unitholders holding the A, A2, D, I, I2 and N Income Unit Classes.

The U.S. Blue Chip Equity Fund declares and pays annual distributions to Unitholders holding the D and N Income Unit Classes.

The China Opportunites Equity Fund declares and pays annual distributions to Unitholders holding the I Income Unit Class.

The Preferred Securities Fund declares and pays quarterly distributions to Unitholders holding the A, I, D, F, N, P and X Income Unit Classes.

The Global High Yield Fund declares and pays quarterly distributions to Unitholders holding the A, I, D and N Income Unit Classes.

The Global Property Securities Fund declares and pays quarterly distributions to Unitholders holding the A2 (Quarterly), D2 Income Plus Unit Classes and I (Quarterly) Income Unit Classes.

The Post Short Duration High Yield Fund declares and pays quarterly distributions to Unitholders holding the A, A2 and I Income Unit Classes.

The Finisterre Unconstrained Emerging Markets Fixed Income Fund declares and pays quarterly distributions to Unitholders holding the A, A2, I, I2, I3, D, F, N Income Unit and A2 and P2 Income Plus Unit Classes.

The Finisterre VAG Unconstrained EM Fixed Income Fund will declares and pays quarterly distribution to Unitholders holding the I2 Income Unit Class.

The Finisterre Emerging Markets Debt Euro Income Fund declares and pays quarterly distribution to Unitholders holding the N Income Unit Class.

The Asian High Yield Fund declares and pays quarterly distributions to Unitholders holding the I2 and A2 Income Unit Classes.

2. PRINCIPAL ACCOUNTING POLICIES (continued)

Distributions (continued)

The China Opportunities Equity Fund declares and pays quarterly distributions to Unitholders holding the A Income Unit Class.

The Preferred Securities Fund declares and pays monthly distributions to Unitholders holding the D2 Income Unit and D2 Income Plus Unit Classes.

The Global High Yield Fund declares and pays monthly distributions to Unitholders holding the D2 Income Plus Unit Class.

The Global Property Securities Fund declares and pays monthly distributions to Unitholders holding the D2 Income Unit Class.

The Post Short Duration High Yield Fund declares and pays monthly distributions to Unitholders holding the D2 Income Unit and D2 Income Plus Unit Classes.

The Asian High Yield Fund declares and pays monthly distributions to Unitholders holding the D2 Income Unit and D2 Income Plus Unit Classes.

The Principal High Grade Capital Securities Fund will declares and pays quarterly distribution to Unitholders holding the X Income Unit Class.

The Principal Capital Securities Fund will declares and pays quarterly distribution to Unitholders holding the X Income Unit Class.

There are no D2 Income Unit Classes in issue currently on the Finisterre Unconstrained Emerging Markets Fixed Income Fund.

Monthly distributions will also be payable in respect of the N2 Income Unit Class on the Preferred Securities Fund. There are no N2 Income Unit Classes in issue currently on the Preferred Securities Fund.

There were distributions out of capital of \$256,797 (30 September 2023: \$414,027) during the period under review.

Upon the expiry of the period of six years after the relevant Distribution Date, the Holder and any person claiming through, under or in trust for him shall forfeit any right to any distribution not paid, and such amount shall become part of the relevant Fund.

Distributions are recorded by each Fund on ex-dividend date in the Statement of Comprehensive Income.

Offsetting

Financial assets and liabilities are offset and the net amount reported in the Statement of Financial Position when there is a legally enforceable right to set-off the recognised amounts and there is an intention to settle on a net basis, or minimise the assets and settle the liability simultaneously. No offsetting has taken place during the period ended 31 March 2024 and financial year ended 30 September 2023.

Participating Units

All participating units issued by the Funds provide the investors the right to acquire redemptions for cash at the value proportionate to the investor's share in the Fund's net assets at the redemption date. Such instruments give rise to a financial liability for the present value of the redemption amount. In accordance with the issued prospectus the Funds are contractually obliged to redeem units at the traded NAV per unit which is calculated at each valuation point.

Redeeming Units

When a redemption request has been submitted by a Unitholder who is or is deemed to be an Irish resident, or is acting on behalf of an Irish resident, the Manager shall deduct from the redemption proceeds an amount which is equal to the tax payable by the Unit Trust to the Revenue Commissioners in Ireland in respect of the relevant transaction.

Cross Umbrella Holdings

Some of the Sub-Funds use cross investment techniques, meaning that the Funds invest into other Funds of the umbrella structure. The Combined Statement of Net Assets, the Combined Statement of Operations and the Combined Statement of Changes in Net Assets have not been adjusted to remove the impact of the cross investments.

The following Funds held cross umbrella investments as at 31 March 2024, outlined in the Schedule of Investments of the Fund, the market value of which represents 2.76% of the combined net assets.

Fund	Cross Umbrella Investments	Currency	Market Value	% of Net Assets
Preferred Securities Fund	Principal Capital Securities Fund	USD	90,280,800	2.23
Preferred Securities Fund	Principal High Grade Capital Securities Fund	USD	91,368,970	2.26
Finisterre Unconstrained Emerging Markets Fixed Income Fund	Finisterre Emerging Markets Debt Euro Income Fund - X Class Acc	USD	16,300,526	0.89
Finisterre Unconstrained Emerging Markets Fixed Income Fund	Finisterre Emerging Markets Debt Euro Income Fund - X Class Inc	USD	16,300,526	0.88

3. TAXATION

Under current law and practice the Trust qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997, as amended. On that basis, it is not chargeable to Irish tax on its income or gains.

However, Irish tax may arise on the happening of a “chargeable event”. A chargeable event includes any distribution payments to Unitholders, any encashment, redemption, cancellation, repurchase or transfer of units and any deemed disposals of units as described below for Irish tax purposes arising as a result of holding units in the Trust for a period of eight years or more. Where a chargeable event occurs, the Trust is required to account for the Irish tax thereon.

No Irish tax will arise on the Trust in respect of chargeable events in respect of:

- (i) a Unitholder who is neither Irish resident nor ordinarily resident in Ireland for tax purposes, at the time of the chargeable event, provided appropriate valid declarations in accordance with the provisions of the Taxes Consolidation Act, 1997, as amended, are held by the Trust or the Trust has been authorised by the Irish Revenue to make gross payments in the absence of appropriate declarations; and
- (ii) certain exempted Irish tax resident Unitholders who have provided the Trust with the necessary signed statutory declarations.

Dividends, interest and capital gains (if any) received on investments made by the Trust may be subject to taxes imposed by the country from which the investment income/gains are received and such taxes may not be recoverable by the Trust or its Unitholders.

6. DISTRIBUTIONS

For the period ended 31 March 2024

Interim Distributions were declared on 1 April 2024 and 1 April 2023 respectively. Distributions declared on 1 April 2024 or nearest subsequent business day have not been included in the Statement of Comprehensive Income for 31 March 2024. These will be included in the financial statements for 30 September 2024. The A Income Unit Classes from the Global Responsible Equity Fund did not declare and pay any interim distributions for the period ended 31 March 2024 or 31 March 2023. Distributions declared on 1 April 2024 relate to 31 March 2024 distributions in the table below.

Accumulation Classes

The Accumulation Unit Classes did not declare Distributions on 31 March 2024 or 31 March 2023.

Quarterly and Annual Distributions

NOTES TO THE INTERIM REPORT AND FINANCIAL STATEMENTS
for the period ended 31 March 2024 (continued)

7. SIGNIFICANT CONTRACTS AND TRANSACTIONS WITH RELATED PARTIES

Management Fee

Pursuant to the Trust Deed dated 13 October 1992, Principal Global Investors (Ireland) Limited (“the Manager”) acts as Manager to the Trust and is responsible for its management and administration. For services rendered, the Trust will pay to the Manager an annual fee, accrued daily in the unit price and payable monthly in arrears. The Management Fee is currently calculated as a percentage of the NAV of each Fund and is accrued every Business Day. These related party transactions have been entered into in the ordinary course of business. The Management Fee expense is shown in the Statement of Comprehensive Income and the accrued amount is shown in the Statement of Financial Position. Management Fee rates for each unit class are listed in the supplement for each Fund. These are available from the www.principalglobal.com website.

Expense Cap

The Manager, at its discretion, may absorb (directly by waiving a portion of its fees or by reimbursement to the account of each Fund), certain additional fees, costs or expenses for each Fund that may arise in respect of the management and operation of the Trust attributable to each Fund. This Expense Cap fee is shown as Rebate/Recharge to the Fund due to capping in the Statement of Comprehensive Income and the accrual/prepaid amount is shown as part of Other Assets or Other Payables in the Statement of Financial Position.

Administration Fee

In addition to the Management Fee, the Trust Deed permits the Manager to charge an Administration Fee of up to 0.15% per annum of the value of the units in the Funds for administering the Trust. Currently the Manager only charges this fee on the NAV of the Funds attributable to A, D, F and N Class units. This fee is calculated as a percentage of the NAV of each Fund attributable to A, D, F and N Class Units and is accrued every Business Day. The total accrued amount is paid monthly in arrears. All fees and expenses payable to the Administrator in respect of the administration services it provides to the Manager will be met by the Manager. Administration Fee expense is shown in the Statement of Comprehensive Income and the accrued amount is shown in the Statement of Financial Position.

Trustee and Depositary fee

The Manager appointed The Bank of New York Mellon SA/NV, Dublin Branch to act as the Trustee to the Trust. The principal activity of the Trustee is to act as the Depositary and Trustee of the assets of collective investment schemes (“CISs”). The Trustee may retain for its own use out of each Fund a fee of up to 0.012% per annum of the NAV of the units calculated on each Business Day during the month, accrued and deducted from the Fund the following month - subject to a minimum fee of US\$15,000 per annum which may be waived. The fee currently charged by the Trustee per Fund is disclosed in the relevant supplement for each Fund. The Trustee Fee expense is shown in the Statement of Comprehensive Income and the accrued amount is shown in the Statement of Financial Position.

Directors’ Remuneration

Mr. John O’Connell, Ms. Bronwyn Wright and Mr. Jim Firn are independent non-executive Directors of the Manager and have no executive function with the Investment Adviser or its related party companies. Each independent non-executive Director receives an annual fee of €33,540 for their services rendered to the Trust. Mr. Joel Pitz, Ms. Barbara Wenig, Mr. James Bowers and Mr. Donnacha Loughrey are related parties to the Investment Adviser and are not entitled to receive any compensation from the Trust.

Sub-Custody Fee

The Depositary will be paid a fee at normal commercial rates and such fee shall be paid out of each Fund. The level of Sub-Custodian Fees and expenses will vary depending on the investment profile of the Fund including, in particular, the nature of the securities markets in which the Fund invests, the size of the Fund and the amount of trading in the assets of the Fund. Such fees will be charged at normal commercial rates and will only be reimbursed from a Fund where they are less than 0.50% per annum of the NAV of the Fund. The Manager will pay any fees that exceed this level. Depositary Fee expense is shown in the Statement of Comprehensive Income and the accrued amount is shown in the Statement of Financial Position.

PRINCIPAL GLOBAL INVESTORS FUNDS
NOTES TO THE INTERIM REPORT AND FINANCIAL STATEMENTS
for the period ended 31 March 2024 (continued)

7. SIGNIFICANT CONTRACTS AND TRANSACTIONS WITH RELATED PARTIES (continued)

Performance Fees

There are no performance fees on any of the Funds for the period ended 31 March 2024 or for the year ended 30 September 2023.

Audit Fees

The audit fee charged for the period ended 31 March 2024 was \$137,072 excluding VAT (31 March 2023: \$117,195 excluding VAT).

⁴Principal Capital Securities Fund launched on 13 March 2024.

9. EFFICIENT PORTFOLIO MANAGEMENT

The Funds are denominated in USD, except for Finisterre Emerging Markets Debt Euro Income Fund which is denominated in Euro, but purchase assets denominated in a range of currencies. During the period, transactions were entered into which are economically appropriate to the reduction of relevant risks or costs to improve investment performance.

Subject to the conditions and within the limits from time to time laid down by the Central Bank, and except as otherwise stated in the investment objective and policies of a Fund, the Investment Adviser and/or Sub-Investment Adviser(s) may employ, for certain Funds, investment techniques and instruments such as futures, forward foreign currency exchange contracts, currency swaps, credit default swaps, total return swaps, options, equity options, warrants and other derivatives for Efficient Portfolio Management (“EPM”) purposes if deemed advisable by the Investment Adviser/Sub-Investment Adviser(s). Furthermore, new techniques and instruments may be developed which may be suitable for use by a Fund in the future, and a Fund may employ such techniques and instruments subject to the prior approval of, and any restrictions imposed by, the Central Bank.

For UCITS which have engaged in EPM techniques, certain disclosures are required under Chapter 4 of the Central Bank UCITS Regulations. The Investment Advisers of the Funds have identified all Financial Derivative Instruments (“FDIs”) which are used for EPM. A UCITS is required to disclose the revenues arising from EPM techniques for the entire reporting period together with the direct and indirect operational costs and fees incurred.

The Funds may also where indicated in the relevant supplement, enter into repurchase, reverse repurchase, sale and buyback agreements and stock lending agreements. The Investment Adviser/Sub-Investment Adviser(s) considers only repurchase agreements, reverse repurchase agreements and securities lending to be EPM techniques. None of the Funds held repurchase agreements, reverse repurchase agreements or took part in securities lending as at 31 March 2024 or at 30 September 2023.

Details of all open transactions at the period end are disclosed in the Portfolios of Investments.

NOTES TO THE INTERIM REPORT AND FINANCIAL STATEMENTS
for the period ended 31 March 2024 (continued)

10. DEALING COMMISSION ARRANGEMENTS

The Investment Adviser appointed in relation to each Fund is responsible for the selection of brokers with whom they deal. In relation to certain equity Funds, the Investment Adviser/Sub-Investment Adviser(s) have entered into dealing commission arrangements with brokers whereby they obtain services or benefits from them, or from third parties – which are paid for out of commissions charged to the Funds. Such services or benefits relate primarily to research and portfolio management, and ensuring their purchase is compliant with relevant local regulation; including being a permitted service. The relevant Investment Adviser/Sub Investment Adviser(s) are satisfied that trades generating soft commissions comply with the relevant local regulations requiring best execution – which requires consideration of relevant factors, including price and execution quality.

11. FINANCIAL RISK MANAGEMENT

Financial Assets at Fair Value through Profit or Loss

Under FRS 102, the Trust is required to classify fair value measurement using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Level 1: The unadjusted quoted price in an active market for identical assets or liabilities that the entity can access at the measurement date.
- Level 2: Inputs other than quoted prices included within Level 1 that are observable (i.e. developed using market data) for the asset or liability, either directly or indirectly.
- Level 3: Inputs are unobservable (i.e. for which market data is unavailable) for the asset or liability.

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

"FRS 102 - Fair value hierarchy disclosures" require disclosure of financial instruments held at fair value on the basis of a fair value hierarchy consistent with EU-adopted IFRS based on Level 1, 2 and 3 classifications. The financial statements and comparatives have been prepared in accordance with these amendments and fair value measurement is categorised based on Levels 1, 2 and 3.

The fair value of securities held in Level 3 for the period ended 31 March 2024 was USD 77,375 (30 September 2023: USD 296).

The following tables analyse the financial assets of each Fund against the fair value hierarchy and measures them at fair value for 31 March 2024 and 30 September 2023 in accordance with FRS 102.

²CCB Principal China New Energy Innovation Fund launched on 17 May 2023.

13. GLOBAL EXPOSURE

The Investment Adviser/Sub-Investment Adviser(s) employ a documented Risk Management Process in relation to the use of FDIs, which ensures the risk associated with the positions is measured, monitored and managed. In respect of the Finisterre Unconstrained Emerging Markets Fixed Income Fund; Finisterre Unconstrained VAG Unconstrained EM Fixed Income Fund and Finisterre Emerging Markets Debt Euro Income Fund; an Absolute VaR Approach, based on a confidence level of 99% for a daily horizon and considering at least two years of historical data is used to manage risk. In relation to the remaining Funds, the Commitment approach is used; which entails monitoring global exposure and counterparty exposure associated with the positions.
